See Me Grow Baby Packages

Capture those special moments that you will treasure forever. From tiny newborns, we can follow your little one through the first year of their life. The ultimate new baby collections:

We can start with helping you really express the joy of your pregnancy with a maternity session, followed by a newborn portrait session. Remember, they will never be this tiny again! We find it best to capture the newborns within the first two weeks of life while they are still small and sleepy.....

From the tiniest newborns to inquisitive toddlers, we are baby photography portrait specialists. Time progresses and babies grow up all too quickly, so it's important to act early and capture those special moments with a professional baby photographer.

The ultimate new baby collections: You choose the stages that you want to include in your Package

Pregnancy New born 3-6 months 6-12 months 12-18months

We can start at any stage that you would like to begin with.... and have a variety of options on offer or you can make your own bespoke package...

All of our packages include the sitting fees and are payable in full at the time of booking or first sitting:

We offer sittings on the following days and times. Appointments are necessary.

Children are forever changing, and we know that no matter what the age there are still moments to cherish. Why not let us capture that look.

It's as simple as that, we hope this explains it all.... look forward to seeing you very soon

We think our portraits are best displayed on the wall for everyone to view and admire, so let them take centre stage and invest in our contemporary wall art.... What are you waiting for

Much love from all at Rebecca Dawe Photography
